

PROJECT ALERT

HYDRAULIC MODIFICATION PROJECT

About the Project

ETWD recently became aware of resident's concerns regarding low water pressure in United Mutual in the Gate 4 area. Upon learning of the concerns the District began an immediate evaluation to assess the issues and identify solutions. As a result of that effort ETWD is working on a project to install approximately 500 feet of new pipeline and a pressure regulating station along Avenida Sevilla that will improve pressure in the area.

The District is working on reasonable efforts to expedite the project. Once the engineering design is complete the project construction is expected to take approximately three months.

Preliminary Project Location

Avenida Sevilla between Gate 4 and Via Los Altos

PROJECT AREA

500-FT OF 12-INCH PIPELINE

NEW PRESSURE
REGULATING (PR) STATION

GATE 4

AVENIDA SEVILLA

PASEO DE VALENCIA

PROJECT DESIGN TIMELINE:
NOW - DECEMBER 2026
CONSTRUCTION TIMELINE:
EARLY 2027

United Town Hall Meeting

ETWD will discuss the project at the next United Town Hall Meeting on Friday, Aug. 14 at 2 p.m. in Clubhouse 3, Performing Arts Center.
